As required for a listed company on Nasdaq Copenhagen under the rules for issuers of shares, Pandora also issues the below Statement of compliance with the Danish Committee on Corporate Governance's Recommendations using the "comply or explain"-principle (Appendix 1). The Corporate Governance Recommendations are published at <https://corporategovernance.dk/>. Appendix 1 is not part of the auditor's statement in the 2020 Annual Report.

### **RECOMMENDATIONS AND PRACTICE**

Pandora's aim regarding good corporate governance is to ensure transparency, accountability, and that the Company meets its obligations to shareholders, customers, consumers, employees, authorities and other key stakeholders to the best of its ability in order to maximise long-term value creation.

Pandora strives to exercise good corporate governance at all times, and assesses its practices against the Corporate Governance Recommendations of the Danish Committee on Corporate Governance. As a publicly listed company, Pandora is subject to the disclosure requirements in applicable legislation and the regulations of Nasdaq Copenhagen. The Board of Directors (the "Board") remains committed to, and complies with, the Corporate Governance Recommendations as adopted in November 2017.

### **BOARD AND EXECUTIVE MANAGEMENT**

The corporate authority is divided between the Board and Executive Management, existing independently of each other. The Board outlines the overall visions, strategies and objectives of Pandora's business activities and supervises the performance of Executive Management. The Board's primary tasks are to ensure that Pandora has a strong management team, optimal organisational and capital structures, efficient business processes, transparent bookkeeping and practices, and responsible asset management. Additionally, the Board oversees Pandora's financial development, related planning and reporting systems as well as internal controls and risk management.

The composition of the Board is intended to ensure diversity of the Board's competency profile enabling the Board to perform its duties effectively. The current competencies required and possessed by the Board are brand, consumer, retail, digital and e-commerce, IT and financial insight and experience with strategy development and transformation. All Board members are up for election every year and are elected by the General Meeting.

Members of Executive Management are appointed by the Board. Executive Management is responsible for the day-to-day management and the execution of Pandora's strategy.

Members of the Executive Leadership Team are responsible for the day-to-day operations of their respective business areas while at the same time being part of the overall management of Pandora.

## **BOARD SELF-ASSESSMENT**

The Board conducts an annual self-assessment to monitor its performance and its cooperation with Executive Management. In 2020, the assessment was conducted in collaboration with an independent third party.

The assessment comprised of a collective survey and interviews with each Board member individually. The topics included Board composition, nomination process, competencies, overboarding and Board culture. The assessment also included topics such as the Board's involvement in risk and financial management, control and strategy, committee work and personal contributions.

The report and conclusions of the assessment were shared with the Board and Executive Management, followed by a thorough discussion. The assessment identified that the Board continues to consist of individuals who overall possess relevant competencies and who are engaged and well-prepared. The Board structure and committee work are effective and well-functioning, including interactions with Executive Management.

## **BOARD ACTIVITIES IN 2020**

## **INTERNAL CONTROLS AND RISK MANAGEMENT SYSTEMS IN RELATION TO THE FINANCIAL REPORTING PROCESS**

Responsibility for Pandora's internal controls and risk management systems in relation to the financial reporting process rests with the Board and Executive Management.

The purpose of these internal controls and risk management systems is to ensure that the financial statements provide a true and fair view, free from material misstatements, and that the internal and external financial statements are presented in accordance with International Financial Reporting Standards (IFRS) as adopted by the EU and additional requirements of the Danish Financial Statements Act. While the internal controls and risk management systems are designed and aim to ensure that material misrepresentation of assets, losses and/or significant errors or irregularities and omissions in the financial reporting are avoided, they provide no absolute assurance that all errors are detected and corrected.

Internal controls and risk management systems are under continuous development and are described below.

### **Control environment**

The Board has established an Audit Committee that assists the Board in supervising the financial reporting process and the efficiency of Pandora's internal controls and risk management systems. The Audit Committee reviews significant risks related to Pandora's business, activities and operations as well as risks related to financial reporting. The Audit Committee seeks to ensure that such risks are managed proactively, efficiently and systematically.

Executive Management is responsible for maintaining controls and an effective risk management system and ensuring necessary steps are taken to address the risks identified in relation to financial reporting.

In addition, an Internal Audit and Compliance Controlling (IACC) function helps Pandora accomplish its objectives by bringing a systematic and disciplined approach to evaluating and improving the effectiveness of internal controls, risk management, compliance and governance processes. The IACC function assists Pandora's Executive Management and the Audit Committee in identifying, avoiding and mitigating risks. The composition of the Board, the Audit Committee and Executive Management together with the IACC function ensure the availability of relevant competencies with respect to internal controls and risk management systems in relation to the financial reporting process.

### **Risk assessment**

The Board and Executive Management assess risks on an ongoing basis, including risks related to financial reporting, and assess measures to manage, reduce or eliminate identified risks. The Audit Committee reviews selected high-risk areas on a frequent basis, including significant accounting estimates and material changes to accounting policies.

At least once a year, the Audit Committee oversees a review of current internal controls to determine whether they are effective in relation to the risks identified in the financial reporting process.

**Control activities**

The Group Finance function reports to the Chief Financial Officer (CFO). The controlling function within Group Finance is responsible for controlling the financial reporting from Pandora A/S and its subsidiaries, and monitoring compliance with relevant legislation on an ongoing basis.

The Company has adopted and defined an internal control framework that identifies key processes, inherent risks and control procedures in order to secure appropriate accounting processes. The control procedures include a variety of processes in order to prevent any misrepresentation, significant errors, omissions or fraudulent behaviour. The control procedures are tested on an ongoing basis and reported to the Audit Committee.

**Information and communication**

The IACC function is present at all Audit Committee meetings and provides regular status updates to the committee. Furthermore, the head of IACC has regular meetings with the CFO. This set-up ensures transparency and that communication is shared with the Audit Committee on a timely basis. The Board has adopted an Investor Relations policy that requires all communication to stakeholders, including financial reporting, to be conducted adequately, timely and openly – both internally and externally – and to be conducted factually and truthfully and in compliance with laws and applicable regulations.

**Monitoring**

Pandora's internal controls and risk management systems, including the whistleblower function, are continuously monitored, tested and documented. The Audit Committee monitors internal controls and the risk management process to ensure that any weaknesses are eliminated and that any errors in the financial statements identified and reported by the auditors are corrected, including controls or procedures implemented to prevent such errors.

Pandora's independent auditors are appointed for a term of one year at the Annual General Meeting following the recommendation of the Board. Prior to recommendation, the Board assesses, in consultation with Executive Management, the independence, competencies and other matters pertaining to the auditors. The framework for the auditors' duties, including their remuneration, audit and non-audit services, is agreed annually between the Board and the auditors following the recommendation of the Audit Committee.
